Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, altered the way I believe.

FROM GRAVE TO CRADLE TO NOW - THE HEALTH CARE PROFESSIONAL EDITION (HARDBACK)

Marrette Publishing, United States, 2012. Hardback. Book Condition: New. 231 x 155 mm. Language: English . Brand New Book ***** Print on Demand *****. I was riveted from the first page, was the reaction of a senior health professional to this first-person account of a traumatically injured patient, a collaterally damaged family and their multi-year relationship with many health professionals. Rare is such a riveting first-person, minute-by-minute account; rarer still, by a father. Readers will take away the story, suspense, drama, and knowledge for present and future use-including To Do lists. One item is how professionals and families can use techniques such as blood harmony-entrainment-to save and heal the traumatically injured, acutely ill and collaterally damaged family. If you are preparing health care courses, this compelling book will provide new insights, and stimulate thought and discussion in key practice areas. It has been augmented by and for health professionals and educators. . it is captured as a whole lived experience, including the explainable, the frightening, the joyful and the mysterious. It is the story before analysis, before explanation and before the extraction of useful guidance for professionals that captures the heart. Read the words, see his family and yours and marvel at your good fortune to have this account. Learning will follow. David A. Gass, MD, CCFP, FCFP, Professor Department of Family Medicine, Dalhousie University . This vivid and powerful book about a real life experience is filled with valuable insights and lessons that are certain to help patients, families and health professional alike to improved patient outcomes and experiences within the healthcare system. Cliff Nordal, Shared President and CEO (Retired) London Health Sciences Centre and St. Joseph s Health Care . It is essential for health care professionals to learn about and understand the lived experiences of both patients...
